Komplettservice
aus einer Hand

Reference – to whom it may concern

The German HIS (Health Information Services Institute) business of 3M Medica co-operates with Arsis in Moscow since 1998. Arsis develops parts of our applications, including medical coding, statistics and quality assurance.

Arsis deals with jobs in a highly professional way. The quality of their programming and the short delivery times make Arsis a reliable and preferred partner. We are looking forward to continue our successful partnership.

Neuss, June 2006

Axel Bruns

Manager Software Development

3M Medica, Health Information Services Institut
